

**"Let's do it differently"**

**trimbio**

NAVPA and **trimbio** are working together to offer a first in electrotherapy servicing. To reduce the cost of servicing and also reduce the down time of your equipment, we are offering to service your equipment while you attend the NAVPA Conference in October 2016. To find out more and make your booking please contact Simon Francis at **trimbio** on 07833 252517 or email [simon.francis@trimbio.co.uk](mailto:simon.francis@trimbio.co.uk)

**Some of the items we can service :**

Ultrasound, Laser, H-wave, Interferential, TENS, Muscle stim, Magnetic Therapy, Pulsed Shortwave, Biofeedback, Couches etc...

**Reasons why equipment needs to be serviced regularly:**

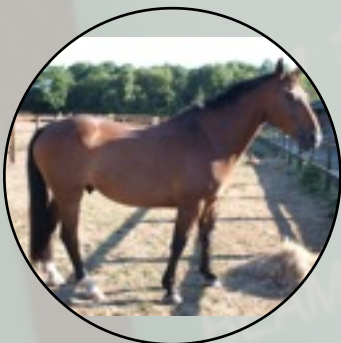

If your equipment is not serviced regularly, then you may not be insured to use it. If your equipment is not delivering the correct output, you may be delivering an ineffective treatment or worse, an overdose.

You are legally responsible for your equipment to be safe and effective, let **trimbio** help you manage this requirement.

**Guideline on price:**

Laser unit and probes £45	Pen laser £20	Magnetic Unit £30
Ultrasound unit £30	Combination unit £50	Battery Muscle stims £10
H-Wave £25	Interferential unit £25	Tens £5

Minimum service price is £45, 10% discount for over £150 of service. Price excludes parts - i.e , plugs, lens,etc.. (note batteries are recommended to be replaced every 3 years). All prices exclude VAT.
